

Fee Arrangements

Our commitment to creative and attentive client service extends to every aspect of the case. We work with clients to allow the contours of each matter and the client's needs and preferences to drive our fee arrangements. We actively deploy both traditional hourly billing as well as alternative approaches that incorporate staged, lump sum and contingent fee agreements. The focus for us is not how we approach compensation with our clients; we focus on the value we provide to our clients through creative solutions to their complex problems.
